

\*\* Psychology Symposium \*\*

Understanding human behavior is a distinct advantage in any career pursuit involving human interaction. Our Bachelor of Arts degree in psychology develops critical and analytical thinking skills as well as research skills. It also offers students a breadth of knowledge of the discipline in preparation for graduate or professional training and helps students apply their knowledge in real-life situations. The Psychology Symposium will assist students in understanding the requirements for acceptance in graduate and professional schools and in developing a perspective on the many different career choices in the broad field of psychology. Additionally, our students will enjoy a talk on current research in psychology from our keynote

*Associate Professor and Interim Department Head - Psychology*
